
Got an idea for safer health care?

We want to hear it.

The Michigan State Commission on Patient Safety is asking for testimony from citizens on recommendations for improving patient safety and reducing health care errors throughout the state's health system.

You're invited to attend any time during the following public hearing hours; no appointment required. Each person's testimony is limited to five minutes.

November 15, 9:00 a.m.-4:00 p.m.
Department of Community Health
Baker-Olin West, Conference Rooms B & C
3423 N. Martin Luther King Jr. Boulevard
Lansing

Tips for Effective Testimony

- Please provide a written copy of your comments, if at all possible
- Briefly state your relationship to or experience within the state's health care system
- Describe the ways you believe patient safety can be improved and health care errors reduced within our health system
- Do not include names or patient-specific information
- Include as much detail as possible for your recommendations, especially their potential to benefit patients and patients' families

For more information on these hearings, the Michigan Health and Safety Coalition, or the State Commission on Patient Safety, please visit www.mihealthandsafety.org.
